4. Growth and development is a continuous process

Question Number : 3 Question Id : 630680569088 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

What is the most appropriate feeding volume suggested for a neonate of Day 1-Day 4 age?

Options :

1. 20-40 ml/gm/day
2. 30-60 ml/kg/day
3. 100-120 ml/kg/day
4. 150-200 ml/kg/day

Question Number : 4 Question Id : 630680569089 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0 Correct Marks : 2 Wrong Marks : 0.5

Which of the following is not a major causes of under-five morbidity and mortality, as per IMNCI?

Options :

1. Pneumonia
2. Measles
3. Diarrhoea
4. Albinism

Question Number : 5 Question Id : 630680569090 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

ALL of the following steps are followed by the staff nurse to prevent Hypothermia in Newborn EXCEPT:

Options :

1. The temperature of the Delivery room to be maintained above 25° C
2. In the entire process of resuscitation, temperature needs to be maintained
3. The baby should be given bath soon after birth
4. The baby should be immediately dried after birth using a sterile warm towel

Question Number : 6 Question Id : 630680569091 Is Question Mandatory : No Calculator :

None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

The methods to calculate paediatric doses of drug administration are:

- A. Body weight method
- B. Body surface area method
- C. Body height method

Options :

1. Only A
2. A and B
3. Only B
4. A and C

**Question Number : 7 Question Id : 630680569092 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

Which of the following dysfunctions is characterized by defective speech with stumbling and spasmodic repetition of some syllables with pauses?

Options :

1. PICA
2. Stuttering
3. Breath holding spasms
4. Tongue tie

**Question Number : 8 Question Id : 630680569093 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

Which vaccine is primarily given to children to prevent tuberculosis?

Options :

1. MMR
2. DPT
3. BCG
4. HepB

**Question Number : 9 Question Id : 630680569094 Is Question Mandatory : No Calculator :
None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0
Correct Marks : 2 Wrong Marks : 0.5**

Which of the following is not a part of nursing management for the prevention of disease transmission in kids?

Options :

1. Isolate children with suspicious rashes and respiratory infections
2. Leave draining wounds open to dry
3. Recall that the fecal-oral and respiratory routes are the most common routes of transmission in

children

4. Wipe down hard surfaces in the examining room with an antiseptic solution before another child uses the room

Question Number : 10 Question Id : 630680569095 Is Question Mandatory : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Correct Marks : 2 Wrong Marks : 0.5

Which among the following is a tool used to adjust drug dosages based on a patient's body surface area?

Options :

1. East Nomogram
2. West Nomogram
3. South Nomogram
4. North Nomogram
